# The Notch Meeting XI

6– 10 October 2019  
Athens, Greece

In 2007 we began *The Notch Meetings*, a series of annual conferences on the Notch signaling pathway bringing together researchers working on diverse questions and experimental systems. This year's meeting is the eleventh *Notch Meeting* covering the full breadth of science related to the Notch pathway. The intention, as always, is that the meeting will provide us with a global view related to Notch pathway biology and enable us to hear and meet old and new players.

The meetings are sponsored by Fondation Santé ([www.FondationSante.org](http://www.FondationSante.org)) and also by the generosity of additional sponsors.
